Professional Summary

I am an initiative-taking and enthusiastic painter with an eye for detail who is working in the trade for 7 years. After and during my apprenticeship in Germany, I worked on many projects such as heritage buildings, strata buildings and residential buildings. Besides the general painting skills, including plastering, rendering, and paper hanging, the specialisation during my apprenticeship was on design and maintenance.

I am willing to gain knowledge and expertise in every field here in Australia.

Skills

- Dependable and dedicated
- Responsible, reliable, and trustworthy
- Able to work in a team as well as alone
